Our Team is Growing!

Going into Fall of 2018, USA Land and Ranch was a one-person show. The addition of part-time office help brought the total to two. One year later, the part-time help is very full-time and there is an additional auctioneer and ringman, two bid-callers, another real estate agent and property manager, an IT specialist, one full-time and three part-time warehouse associates. It has taken some time, but we are moving in the right direction!

With this new team, we are positioned to handle your auction and real estate needs. Contact us today with your business request and let us help you!
